

Tomatoes - pg 1 Cherry

Variety

Description

Days to Maturity

Determinate (D) Indeterminate (I)

Artisan Blush Tiger

A true Julienne, elongated type, yellow with red & multi-colored stripes. May pick early or allow to ripen off vine. Continuous harvesting stimulates production.

75

I

Baxter's Bush Cherry

Early, red cherry with excellent weather tolerance, 1 oz fruit borne on bushy, 2.5-3 ft. plants. High yield.

70-72

D

Brad's Atomic Grape

Large, lavender purple cherry with stripes of green, red & brown. Sweet fruit. Great flavor with a riot of color.

75

I

Eagle Smiley

Dwarf cherry tomato plant. Produces loads of 1 oz golden-yellow, globe-shaped fruit that are borne in clusters of 8-10 tomatoes. First release of the Dwarf Tomato Project's "Teensy" family.

60

I

Exserted Tiger

A blue-tinted, striped cherry grown in Montana. A cross between Amorski Tiger & Blue Ambrosia. Vines need support. Antioxidant properties.

70

I

Fox Cherry

Hardy, productive cherry that grows big, rangy vines. Disease resistant. Produces perfect, plump, salad-sized, red fruit.

Red Robin

Sun Cherry Extra Sweet

Sparky XLS

<u>Variety</u>	<u>Description</u>	<u>Days to Maturity</u>	<u>Determinate (D)</u> <u>Indeterminate (I)</u>
Jaune Flamme	Heirloom 2-4 oz, golf ball sized, apricot orange fruit with balanced sweet & tart flavor. Eat fresh, roast, use in sauces, salads, & dehydrate.	80	I
Juliet	10 oz, red, grape-type. Vigorous, crack resistant, remain in good condition on the vine longer than most cherry tomatoes.	60	I
Patio Choice Yellow	Produces huge yields of lemon-yellow cherry tomatoes on dwarf plants. 100+ fruits with mild flavor, juicy and sugar sweet. Disease resistant.	60	D
Red Robin	Container plant 8-12in tall producing 1-1.5in round fruit in clusters.	55	D
Sparky XLS	Plants tolerate heat and harsh growing conditions. Fruits are very sweet, round, 1 oz. & 1" round. Extended life.	90-100	I
Sun Cherry Extra Sweet	Red-skinned sister to the Sun Gold. Bite-sized, super sweet fruit, huge yields, early producer. Disease resistant.	58	I
Sungold	These fruits are known for their explosively sweet flavor. The bright orange spheres measure 1-1/4 inches across and grow in clusters of 10-15 fruits. Staking or tall cages needed. Crack easily.	57	I

Tomatoes - pg 3 Cherry

<u>Variety</u>	<u>Description</u>	<u>Days to Maturity</u>	<u>Determinate (D) Indeterminate (I)</u>
Supersweet 100	Staked hybrid plants produce long strands of 100 or more super-sweet fruits that weigh about 1 oz each and measure 1" in diameter.	65	I
Tiny Tim	Container, compact plants. Copious quantities of cherry sized, sweet, tart & tangy fruit. Early producer.	45	I
Tomato Berry Garden	F1 hybrid. Fruit resembles large strawberries both in sweetness and appearance. Heart-shaped fruits are 1" in diameter. Resists cracking. Sweeter than most cherry tomatoes	60	I
Tumbler Hybrid Bush	Use for hanging baskets or containers. Vines reach 12"-18" and produce up to 6 lbs of delicious, sweet, bright red fruit.	45	D
Veranda Red	Dwarf plant, 12-20 inches height, 1oz sweet, cherry fruit. Ideal for sunny deck or patio.	55-60	D
Yellow Pear	Heirloom: This extremely old variety makes a vigorous plant that bears enormous numbers of bright yellow, bite-sized fruit. The flavor is deliciously tangy. Perfect for summer party hors d'oeuvres.	78-80	I
